WORK EXPERIENCE

Worked in a big Project
2023-2024

I opened a channel on YouTube and worked hard on it. I was starting from scratch and I only had 10 subscribers. Then I continued to develop my channel, and thank God, I now have 357 subscribers.

Future Goals and Aims
2024

In my opinion, a non ambitious person is like a dead plant. That is why we as humans need to have future goals and aims to improve and enhance our creativity and experience. I am looking forward to level up my Content Creation skills to reach a high-professional level, even.
